Case study: Automating a pipeline's engine control system

Bomar, Randy

Oil & Gas Journal v96n28 pp: 50-51

Jul 13, 1998

ISSN: 0030-1388 Journal Code: OGJ

Word Count: 1887

Text:

...panel previously designed for the customer's sister company was reused with minor modifications. A second panel would be incorporated in the design to allow for pneumatic interface devices; it could be stand-alone, if space restrictions applied, or attached to the new electronic panel to appear as one unit.

The new control system would be the same for each engine type with fewer components per panel based on the engine-compressor make and model. If a...

...provider.

In addition to varying on cost, coverage, and provider, plans varied with respect to type (HMO versus PPO, Table 1). Consumers in the control group, who received no CAHPS(TM) information, were randomly assigned to see the four choices displayed in the upper panel of Table 1 or those displayed in the lower panel. These two sets differ in the specific combinations of cost and coverage, provider, and HMO versus PPO...
